Career Objective

University of Central Florida Graduate 5+ years software engineering on production level environments. Excited to grow and become a dependable advocate that professionally finishes work. Build relationships and corp. culture.

EXPERIENCE

Security Systems

Universal Orlando Resort

July 2023 – June 2025

Universal Orlando (www.universalorlando.com):

- Coordinated real-time security operations with production and command teams, managing incidents, crowd access, escalation procedures, corrective actions, and technical documentation.
- Supported high-volume operations across 400 acres, including Universal Studios Florida, Islands of Adventure, CityWalk, Halloween Horror Nights, and the \$7B Epic Universe development.
- Identified operational hazards and coordinated with cross-functional teams to implement risk mitigation, safety procedures, and corrective actions across assigned zones.
- Operated enterprise access-control systems, validating employee credentials, tickets, and authorization requirements to manage access to restricted environments and attractions.
- Administered contractor Lockout/Tagout procedures, maintaining secure access, regulatory compliance, and documented authorization within active construction environments.
- Performed vehicle and equipment quality inspections, identifying operational defects, safety concerns, and potential failures before deployment.
- Maintained real-time communications with command operations, providing incident status, location, system conditions, escalation requirements, and next actions.
- Maintained security logs and operational documentation for incidents.
- Trained team members on AI-assisted X-ray screening systems, metal detectors, handheld detection technology, and standardized security procedures.
- Monitored CCTV systems and designated security zones, documenting incidents and anomalies for operational review, incident analysis, and legal compliance.
- Supported security systems within Universal’s Epic Universe construction site (Project 308), enforcing credentialing, PPE, NDA, and contractor access requirements.
- Protected confidential assets and intellectual property by collaborating with legal, executive, production, and security teams to maintain information-security controls.

Infrastructure and Ops

Hack UCF

May 2023 – Jan 2025

Hack UCF (<https://www.hackucf.org/>):

- Host Cybersecurity summits at the Lockheed Martin's Cyber Labs. Collaborate with Defense and Big Tech stakeholders to exchange ideas and layout industry-wide cybersecurity initiatives.

- As a participant in Knights Hacks, an organization dedicated to fostering innovation and creativity in technology, I adhered to the Knights Hacks ethics & policy handbook. One of my responsibilities involved assisting sponsors in effectively reaching out to the public, aligning their goals with the mission and vision of Knights Hacks.
- Collaborate and innovate with UCF Alumni and Cybersecurity wizards to develop a production quality cloud environment for solid cybersecurity infrastructure and policy.
- Create back logs and maintain digital forensics with Splunk. Kali Linux, PowerShell and BASH Script commands. C, Rust and Java.

Tech Coach

Asurion

March 2022 – Feb 2023

Asurion (www.asurion.com):

- Asurion advocate that knows every type of clients tech buildout and has the capability of adding clients to the Asurion technology coverage plan for Asurion's products and services through the Verizon partnership.
- Professionally address clients remotely from call operations center while assisting in navigating hardware and software issues. Building business lines of coverage.
- Support team members throughout the client experience and train pitching techniques with call scripts to build customer relationships and improve the user experience.

Digital Support

Truist

Jan 2020 – Feb 2022

Truist (www.truist.com):

- Truist Bank Digital and Credit Services. Take two legacy bank systems and merge them into a modernized cloud infrastructure while maintaining client relationships and following federal regulation.
- Key Performance Indicators include average handling time (AHT), First-Call Resolution (FCR), Customer Satisfaction Score (CSAT), Quality Assurance (QA) and adherence (ADH).
- Mentorship Program; Mentor teammates on bank procedures, policies, regulations, and new technology.
- Utilize AWS architected Framework to streamline workflow from Orlando Operations Center.

Sales Associate

Cricket Wireless

May 2016 – Feb 2018

Cricket (www.elitewireless.com):

- Authorized Cricket Wireless advocate assigning devices to user accounts ranging data with products from distributors. Negotiate open contract data plans producing a 15% increase in year over year churn for my store becoming one of the best in the district.

EDUCATION

Bachelor of Science in Computer Engineering

- **University of Central Florida**

Orlando, FL, Graduated 2026

Associate in Arts

- **Valencia College**

Orlando, FL, Graduated 2020

VOLUNTEER EXPERIENCE

- Melbourne Shriner Club
- Give Kids the World
- Second Harvest Food Bank
- Cycle for American Cancer Society
